

DONOR AWARENESS: About 450 people attended an April 29 event at 770 Chabad Gate in Thornhill that raised awareness about kidney disease and the need for transplants. By the end of the evening, organized by Chabad institutions in the GTA, 17 people had signed up to become kidney donors with Renewal Toronto, an organization that helps find kidney donors for those in need. So far, the organization has seven people on its recipient list and about 30 potential donors. The event included a speech by Rabbi Ephraim Simon of New Jersey, inset, who donated a kidney about one year ago.
